

DEFAULT ROUTER

Aim: Configure default route, static route to the Router.

Topology:

Configuration of default route

Procedure:

- Place 2 PC-PT and 3 router - PT's on the logical interface
- connect them with appropriate cable, use copper crossover to connect PC-PT to routers and the serial DCE to connect the routers
- Type the IP address & gateway to all the devices in config.
- In CLI of each device and configure the IP address as well as "no shut" command to enable the interface and allow the gateway to communicate which results in green light.

Once all gateways and routes are green, the route can be set in each router to configure the unknown network ID's which will help in routing the packets. This can be

easily nominating or checked using the
"show ip address route"

```
> enable
> config t
> interface fastEthernet 0/0
> ip address 10.0.0.10
> no shut
> exit
> interface serial 2/0
> ip address 20.0.0.10 255.0.0.0
> no shut
> exit
> exit
> ip route 0.0.0.0 0.0.0.0 20.0.0.20
```

Commands for router 1

```
> enable
> config t
> interface serial 2/0
> ip address 20.0.0.20 255.0.0.0
> no shut
> exit
> interface serial 3/0
> ip address 30.0.0.10 255.0.0.0
> no shut
> exit
> exit
> ip route 10.0.0.0 255.0.0.0 20.0.0.20
> ip route 40.0.0.0 255.0.0.0 30.0.0.10
> exit
```

Commands for Router 2

```
> enable
> config t
> interface fastethernet 0/0
> ip address 40.0.0.10 255.0.0.0
> exit
> interface serial 2/0
> ip address 30.0.0.20 255.0.0.0
> exit
> ip route 0.0.0.0 0.0.0.0 30.0.0.10
> exit
> ip address 20.0.0.10 255.0.0.0
> no shut
> exit
> exit
> ip address 20.0.0.10 255.0.0.0
> no shut
> exit
> exit
> ip route 0.0.0.0
```

Output :

Ping 40.0.0.1

Pinging 40.0.0.1 with 32 bytes of data

Request timed out.

Reply from 40.0.0.1 : bytes=32 time=20ms TTL=125

Reply from 40.0.0.1 : bytes=32 time=9ms TTL=125

Reply from 40.0.0.1 : bytes=32 time=21ms TTL=125

Ping statistics for 40.0.0.1:

Packets sent = 4 received = 3, lost = 1 (25%)

Approximate round trip times in milliseconds:

min = 9ms, max = 21ms, Avg = 16ms

10/10

10/7/23

Command Prompt
